

Managing Passwords in Firefox

1. Click on the menu button ☰ to open the menu panel.
2. Click Passwords. The Firefox *about: logins* page will open in a new tab.

From here, you can view, copy, edit or remove your saved logins.

Note: You can enter a site, username or password in the *Search logins* text box, to filter the logins listed on the left.

After you select an entry from the list of logins, you can perform these actions:

- Click **Copy** to copy a username or password.
- Click  to see the password.
- Click **Edit** to change the username or password.
- Click **Remove** to remove the login from Firefox.

See [this article](#) for more information.

To Remove all saved logins

1. Click on the menu button  to open the menu panel.
2. Click Passwords.
3. Click the 3-dot menu on the top right corner.
4. Choose Remove All Logins.
